

Fragmentation- & bullet proof helmet M97P

Art.-No.: 0204900

- Designed for special forces
- Protects against fragments 620m/s mini and bullets NIJ level III-A (357 magnum and 7,62 Tokarev)
- Very comfortable to wear
- Rapid adjustment

Description:

The helmet provides protection against fragments (620m/s) and bullets (NIJ-III A) and is designed for special forces or demining operators under ballistic risk. The high comfort and excellent stability brings a perfect protection to the helmet and allow him to be worn continuously during war, assault, law enforcement missions and demining operations.

Specification:

Shell	Shell in ballistic Aramid (a tough polymer) and of the standard PASGT (Personal Armor System, Ground Troops) form in grainy surface.
Interior design	Very comfortable lining with 3 points of attachment, adjustment band with self-sticking strips and chin strap with 3 point of attachment and rapid adjustment. Two sizes are available PM (small) from 52 to 58 and GM (large) from 57 to 62. The adjustment to the head size is made by action on the cradle and the chinstrap adjustings.
Weight	small 1,3 kg, large 1,55 kg
Color	Blue or any other color specified by the customer
